

# NEW!! From **ROMAX**

## Ultra Blue

- ROMAX Ultra Blue - The lightest, most flexible tubing assembly available.
- Clear wall with a proprietary formula "Ultra Blue" helix.
- Excellent tensile and shear strength.
- 19mm tube with 22mm computer generated, ergonomically designed cuffs.
- Cuffs are lightweight, durable, leak proof and compatible with virtually all CPAP, BiPAP, and respiratory therapy devices of any manufacturer.
- Overall lengths available from 8-120".
- Smooth interior and corrugated exterior provide kink free and quiet operation.
- All ROMAX medical tubing is manufactured from FDA compliant, latex free, all virgin raw materials.

Romax Hose Inc.'s "Ultra Blue" medical tubing is made from materials that comply with FDA specifications 21 CFR 177.1520 and 21 CFR 177.1210.

Romax Hose Inc.'s "Ultra Blue" medical tubing is constructed from materials that comply with ISO 10993/FDA standards for cytotoxicity and biocompatibility.

"Ultra Blue" is a copyright of Romax Inc.
